"This program is funded wholly, or in part, by the Government of the District of Columbia, Department of Health, and Community Health Administration."

Our program helps transition teenagers and young adults from pediatric care to adult health care.

To qualify for the program, one must be a parent or guardian of a 13-21 year old with Sickle Cell Disease (SCD). Please call us or visit our website to learn more about our transition program.

We can help you and your family.

Compensation is available for your participation.
