OPTIMIZING HEALTHCARE QUALITY FOR CHILDREN IN FAMILIES WITH LIMITED ENGLISH PROFICIENCY (LEP)

This presentation will include an overview of best practices for communicating with limited English proficiency patients/families, strategies for improving their healthcare quality and effectively engaging learners who care for LEP populations.

Presenters

**Dr. DeCamp** is an Assistant Professor of Pediatrics at the Division of General Pediatrics and Adolescent Medicine at Johns Hopkins University. Additionally, Dr. DeCamp is core faculty at Johns Hopkins Centro SOL: Center for Salud/Health and Opportunity for Latinos and directs the Bayview Latino Family Advisory Board. Her research efforts are focused on increasing engagement of Spanish-speaking Latino families in pediatric primary care. Read more about Dr. Lisa DeCamp. ....

**Dr. Thompson** is Associate Professor of Pediatrics at the University of Colorado, School of Medicine. In her current position, Dr. Thompson is involved in research, teaching and clinical care. Her research has focused on improving care for limited English proficient populations as well as identifying modifiable family and individual level factors contributing to the development of obesity in low-income Latino children.
