## NEW FREE Online

### Continuing Education Program for Health Professionals

# Health Care Transition For Adolescents and Young Adults

HSCSN launches its *new* online continuing medical education video course for health care professionals interested in transition services.

The course is designed and recommended for health care professionals to prepare youth and their caregivers to assume responsibility for managing their chronic conditions and transfer from a pediatric to an adult model of health care.

#### Course Objectives:

- Learn about the core elements for implementing the new clinical report and algorithm developed jointly by the AAP/AAFP/ACP to improve health care transition for youth and families
- Learn about quality improvement strategies, tools, and resources used by pediatric, family medicine and internal medicine practices participating in the DC Transition Learning Collaborative and how to implement them in your practice
- Become familiar with local resources for transition support
